It meant those who have had financial troubles didn't get penalised.

Don't do this.

Because individual stocks jump up and down at rates never seen in the overall market, it's always possible to get rich or go broke, as long as you're able to consistently pick winners.

Many investors lack this discipline and would do better to simply invest in long term mutual funds or something, taking advantage of decades of future growth without ever having to get their hands dirty.

Whatever the emergency, being able to get your hands on the cash to fix it can really help.

Not only do they carry out adequate checks, they also offer clear pricing and terms of conditions.

Without this financial foundation, investments can't be maintained and seen through to their completion.
