Because no one can see the future, good analysts like MFS look at thousands of securities and only act when they find a near-sure thing.

It may seem like it s only an extra 20, but when payday arrives you could soon find that 20 makes all of the difference.

In addition, if customers struggle to repay their loan, the company will help in any way that they can.

It s a mysterious process, one that most of us understand only abstractly, but it s one that we nonetheless put a lot of stock in.

MFS also finds a place for attention to the future, amidst all of this present-mindedness.

However, after it became apparent that many consumers were getting into further financial difficulties due to borrowing more than they could afford.

She advises her readers on how to save the pennies.

Long Term Thinking.

You see, some investors learn just enough to be dangerous.
